Database Developer

Klein Systems Group Ltd. Klein Systems Group, a subsidiary of HITT nv. www.hitt.nl, has been providing service and software to Ports and Maritime regions for over 25 years. Klein makes a positive difference in the business of maritime operations by combining leading solutions, customer commitment and unparalleled business understanding.
www.kleinsystems.com

Klein Systems is a twenty five year old company providing software systems to plan, manage and bill for various marine port operations. The company supports a growing number of ports (both large and small) primarily in North America and the South Pacific region. Current customers include Port Authorities, Pilotage operations, tugboat operators and marine terminals.

Klein provides its employees with flexibility, the opportunity to travel, direct contact with customers, and a supportive but results oriented team work environment. Klein values respect, loyalty, a strong work ethic, accountability and great communication skills in its employees.

Klein Systems Group has an immediate opening for an experienced developer in Microsoft SQL Server and Microsoft C#. The successful candidate will join project teams engaged in the development and customization of Klein's suite of operations management applications for the maritime industry. The successful candidate must be capable of understanding business/system requirements and designing and coding software modules to meet those requirements, with the support of their team lead and other technical resources in the organization. If your passion is developing elegant solutions for complex business environments then this is the job for you.
